# Surround Sound Cabling

Get your home cabled for surround sound as you build.

## Your Music, Your Lifestyle

Home theatre and audio systems are becoming increasingly popular in Australia as they become more affordable. As popularity has risen, so too has the demand for quality installations.

When you have spent good money on your home theatre or audio system you want to ensure it is installed correctly, so you can enjoy it for years to come.

Thanks to Clipsal Surround Sound Cabling, you can now do away with unsightly cables running across the floor. Exposed cables not only make your

home and system look untidy, but they can also put your expensive theatre / audio system at risk of being damaged.

If you are building, consider cabling your home with Clipsal Surround Sound Cabling as you construct. This will ensure that all of the cables for your home theatre / audio system are neatly hidden away in the wall cavities, eliminating the risk of damaging cabling.

Once you install Clipsal Surround Sound Cabling it is simply a matter of connecting your audio leads to the wall sockets provided. It's that easy.

All Clipsal Surround Sound Cabling and wall sockets are of the highest quality, using OFC (Oxygen Free Copper) speaker cable to deliver superior sound quality, and high grade banana connectors for easy connection of speakers and amplifiers.

Ask your contractor or builder to install Clipsal Surround Sound Cabling while you construct and make sure that you get the most out of your home theatre / audio system. Let Clipsal wire you for sound.

# Audio Solutions - Distributed Audio

Do you ever want to listen to your stereo system in the bathroom, dining room or outside - in fact anywhere in the home that your stereo isn't?

Clipsal's Distributed Audio Solution solves this problem by unlocking your

stereo system, radio, MP3 player or DVD, allowing you to distribute audio to up to seven different locations.

So no matter where you are around the home, the Clipsal Distributed Audio Solution has got you covered.

Up to seven different locations of your choice.

## Some typical scenarios:

### Outdoor Entertaining

Outdoor entertaining is one of Australia's favourite pastimes. So whether you are having a BBQ, a party or just hanging out, the next time you entertain friends or family, enhance the gathering with your favourite tunes.

### Dining Room

Fine food and wine just isn't the same without fine music. The next time you have a dinner party, improve the atmosphere and ambience with one of your favourite relaxing CD's.

### Bathroom

It's been a hard day and all you want to do is unwind in a hot bath with a good glass of wine. Make your relaxation time a therapeutic experience with some soothing music and just drift away.

### Kitchen

You probably spend more time in your kitchen than you think, getting ready at the start of a busy day, and preparing dinner in the evening. Take the burden out of preparing meals by listening to the radio or an enjoyable CD.
